As a passionate software engineering student, I'm looking to immerse myself in many facets of the industry to help guide my career.

Education

2017 – Present (Expected completion 2020)
Bachelor of Software Engineering, RMIT
Courses:
- Advanced Programming Techniques
- User-Centred Design
- Web Programming
- Algorithms & Analysis
- Database Concepts
- Security in Computing
- Software Architecture: Design and Implementation
- Software Engineering: Process and Tools

Experience

Spiral Orb Designs – Junior Developer (Sept 2018 – present)
- Web design
- Developing custom web modules
- Working directly with clients
- Website maintenance
- JavaScript, CSS, HTML
- WordPress

Elephant and Wheelbarrow British Pub – Bartending (May 2018 – present)
- Customer interaction
- Social skills

DigitalYield – Internship (Nov 2017 – Feb 2018)
- Front-end design
- jQuery
- Google Maps API
- HTML/CSHTML
- JavaScript
- Databases

Projects
- Fluid Simulator
- Genetic Evolution Algorithm
- 2D Collision Model
- Gravity Simulator
- 2D Multi-Pendulum Physics Simulator

Competitions
- RMIT ITS Hackathon
- Downer Hackathon – 2nd place, "Most Promising Startup" prize

23/02/2018

To whom it may concern:

This is to verify that Josh Tencic worked with us from 14/11/2017 to 23/02/2018 as a junior developer.

Their key duties consisted but were not limited to:

- Designing page layouts for a web application.
- Implementing these designs using HTML, CSS and JavaScript.
- Researching the use of AngularJS for the web application.
- Re-factoring JavaScript and CSS code to follow best practice and use the most up to date techniques.

Should you require any further information, please contact the undersigned.

Yours truly,

Tim Goodwin
Co-Founder
